**Understanding and Supporting the Gender
Variant Client**

Presenter: Debra A. London, M. Ed., PC

Saturday, April 24, 2010

Kent State University-White Hall

Registration: 11:30am-12:00pm

Workshop: 12:00pm-3:30pm

3 CEU's sponsored by Kent State University

Workshop Overview:

Gender variance falls under many labels such as: cross-dresser, transsexual, gender queer, androgynous, along with a host of other labels. Community and school counselors are rarely provided much in the way of useful information regarding this diverse population. This workshop will provide attendees with the historical, etiological and clinical information needed to better understand and support the gender variant client. The information provided will focus on the concerns and needs of adolescent and adult populations. The focus of the workshop will be on developing the skills needed to provide assessment and treatment planning for the gender variant individual. Additional aspects to be covered include: common therapeutic issues, models of identity development, overview of medications, standards of care, diagnosis, and resources.
